**FOR IMMEDIATE RELEASE**

## **Life Industries Corporation releases a new sanitizing solution in response to COVID-19 crisis**

**North Charleston, South Carolina, March 25, 2020** – Life Industries Corporation, manufacturer of BoatLIFE, RVbyLIFE, and AeroLIFE high-quality care and maintenance products for the marine, RV, and aviation industries, has increased their sanitizing solution production line to help fight the spread and flatten the curve in response to the COVID-19 pandemic.

Available in the following spray bottle sizes: 4 fl. oz., 8 fl. oz., 12 fl. oz., 16 fl. oz., 32 fl. oz., and refill bottles of 16 fl. oz. or 128 fl. oz., the sanitizer is available for immediate sale to the general public as well as for health care professionals, hospitals, and trades.

A solution of Benzalkonium Chloride (BZK) and water, the product is safe to use on skin and surfaces, and is a common ingredient used in most antibacterial wipes and soaps. The chemical is also one of the three FDA- and CDC-approved alternatives to alcohol-based hand rubs. Unlike alcohol-based sanitizers that stop working once dry, Life Industries' Benzalkonium Chloride solution stays on the cleaned surface and continues disinfecting.

To purchase the sanitizer direct from the manufacturer, visit any of the following sites, or reach out to your marine, RV, or aviation products distributor:
