DRIPS AND LEAKS? NOT WITH LIFE SEAL

Any moisture in a boat can cause serious damage, whether it's from an annoying, occasional drip or a serious leak. Life Seal® Sealant from BoatLIFE is an exclusive combination of silicone and polyurethane that was developed specifically for use on boats. Made in the USA, the unique formula can be used above or below the waterline.

Life Seal Sealant has high adhesion properties and air cures quickly with low VOCs. Perfect for a marine environment, it's UV- and mildew-resistant, and won't sag or yellow over time. It's ideal for bedding thru-hulls, ports, windshields and deck hardware. Acid-free and non-corrosive, it can be used on fiberglass, metal, wood, glass, LEXAN, ABS and other polymers. Life Seal is so strong, it can be used to adhere decks to hulls, yet is removable without damaging the gelcoat.

BoatLIFE Life Seal Sealant is available in clear, black, white, aluminum and cameo in standard 10.6 fl. oz. cartridges. Custom colors are offered in quantity. It costs \$26.88 for a 10.6 fl. oz. cartridge; additional quantities are available from 1 fl. oz. tubes to 20 fl. oz. chubbs.
